

# ROOT CAUSE FAILURE ANALYSIS 2ND EDITION

Course Length: Two Days

Date(s) July 23-24

Location: 4110 US Hwy 61 St. Franciscville, LA 70775

Cost per person: \$900 (lunch provided)

**RSAW**

RED STICK ARMATURE WORKS

## Course Description

This seminar will focus on common as well as unusual types of failures broken down by components.

This seminar, updated in 2019, is intended for anyone interested in understanding motor failures and addressing the cause of failure rather than the symptoms.

An extensive 328-page resource manual includes hundreds of photos of a wide range of failures, with the likely causes listed and a clear methodology for confirming the probable cause of each failure.

Presented by:

**RSAW**  
RED STICK ARMATURE WORKS

**EASA**  
The Electro-Mechanical Authority

## Seminar Highlights

- Root cause methodology
- Bearing failures
- Stator failures
- Shaft failures
- Rotor failures
- Mechanical failures
- DC motor failures
- Synchronous motor failures
- Accessory failures
- Case studies
